Prepared By (Communications Unit)				Incident Location							
Don Bush, KL7JFT MATSU DEC				County MATSU State AK Latitude 61 36.3 N Longitude 149 12.3 W							

The convention calls for freq lists to show 4 digits after the decimal place, followed by either an "N" or a "W", depending on whether the freq is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital (e.g. Project 25) or "M" indicating mixed mode. All ch are shown as if prgrm in a control station, mobile or portable radio. Repeater and base stations must be prgrm with the Rx and Tx reversed.
